Notes:

05/19/2007 12:04pm-#58-kjohnson.

Requester screamed at me from the time I answered the phone because he called cox road and they couldn't take the dog, that by the way, he found 3 days ago and never called BASE to report or filed report at either of our County Shelters. He continued yelling at me when I told him I would put the call in to pick the dog up, but I could not promise a time, or even if it would be today that we got out there. He really started screaming then, stating "everytime I call the "dog catchers" they are too busy" I said "sir, STOP yelling at me or I am terminating this call. Please talk to me and tell me your phone number. When I put the number in, all his info. came up and I repeated it to him and ask if that was correct? He said "If you already have all my information, why do you have to ask?" I told him that I needed to verify that the information was all still correct.

He then asked me if I was a county employee, and I said yes. He asked for my name and badge number and I gave it to him.

I then informed him that I was also making notes how he screamed and yelled at me through out the entire phone call.
