## **Notes:**

- 05/22/2009** karlton 44,  
I met with the owner and we discussed the condition of both canines.  
Molly a blk lab has a severe skin condition and bites all over on underbelly. I confirmed appt with AMC on 5-26-09 at 8am. The owner had made this appt when he found the canine and that was as soon as the vet could see him per staff.  
Toby a 13 yr old N-male No skin issues but growths.  
I issued written warnings for L and R's and asked that Molly's exam be faxed to the office.  
I linked Davis to both canines.  
I will attach photos
- 06/03/2009** Karlton 44 @ 8:20am:  
I observed both canines outside in the yard. Molly doesn't look any better. While I was writing out the door tag Molly cried and scratched until she bleed.  
I was able to reach the vet and Molly was seen on 5-26-09 and was treated for mange.  
The type of mange was unknown. I asked her to fax over the exam.  
Molly was vaccinated and tag purchased. However, the suggested treatment had to be altered due to the owner's financial issues (per Christina).  
Toby has a growth the size of a softball on his chest and no vet appt was made for him at AMC.  
I attached photos and spoke with Mercer regarding the canines and their condition.
- 06/03/2009** 8:58am-#58-kjohnson  
  
Received vet report for Molly May. I put in #44's box in dispatch.
- 06/04/2009** karlton 44,  
I called AMC this morning after reviewing what they faxed over yesterday (I was unable to read report)  
I asked that they fax over a rabies certificate and county tag info.  
I also asked if the exam could be typed out and drefaxed. Kelly stated it may take a couple of days but she would try to have it done.  
I have not heard back from the owner re:Toby
- 06/05/2009** AEO MERCER 42  
Spoke to Kelly at AMC. A new typed copy of findings were faxed over to BASE. Confirmed owner of dog could not afford treatment for dog's mange, and did take her back home.
- 06/18/2009** Inv. Mercer #42  
Arrived on scene. Observed "Molly and Toby" in fenced yard. "Molly" appears to have new hair growth on head and legs. She did not appear to be uncomfortable at this time. "Toby's" left eye has green pus across lens. Left a notice on gate for owner. Provided canines with water. Unable to see contents of pot near door. Photographs attached to Activity. Called Animal Medical Clinic. Mr. Vanschaick has a recheck next week. No appointment day or time set at this point. The dog is on a daily oral dose of Ivermectin to treat the demodectic mange per Dr. Michael Thompson, DVM (Animal Medical Clinic.)
- 06/20/2009** Inv. Mercer #42  
Received phone call from Mr. Vanschaick. He states the dog's skin condition is improving, and he will take her to Animal Medical Clinic next week for a recheck.
- 08/01/2009** Inv. Mercer #42  
Left notice on gate. No canines outside at this time.  
  
Received message on voicemail. Mr. Vanschiack states the dog is doing better.
- 08/05/2009** Inv. Mercer #42  
Left a notice on gate with spay certificate. Message on voicemail from dog owner states the dogs stay inside.

- 08/06/2009** Inv. Mercer #42  
Received phone call from dog owner. He has not had the money to take the dog back to Animal Medical Clinic(AMC) for a recheck. He is going to give the dog to a nurse next week. Mr. Vanschaick has a medicated shampoo and Advantage to treat dog for the flea infestation. The yard has been treated with "Ortho." Called Debbie at AMC. She does not have any donated medicines at this time to give to "Molly."
- 08/08/2009** Inv. Mercer #42  
Arrived on scene. Owner not home. Called on cell phone. He refilled the Cephalexin 500mg, and obtained a Promeris for fleas, tick, and mange. Recheck next week.
- 08/12/2009** Inv. Mercer #42  
Received phone call from dog owner for an update on "Molly." Mr. Vanschaick states the antibiotic is helping with the open sores caused by her flea allergy. He will apply the Promeris next week for the mange. Followup in one week.
- 08/29/2009** Inv. Mercer #42  
Left notice on gate. Observed "Molly" standing in open doorway. The hair on her head appears to have grown in. Unable to see rest of body.
- 09/04/2009** karlton 44,  
I advised Mercer of my conversation with ,Ed the room mate. Ed stated that David has been staying with a girlfriend and he is caring for Molly. I took photos of Molly and attached to the activity to gauge her progress.
- 10/09/2009** karlton 44,  
I made contact with owner and dog. Molly looks GREAT. I attached photos to the activity and will close the call
